Executive Summary

In recognition of the critical role that information systems play at Bayview Asset Management, LLC ("Bayview"), this RFP defines requirements necessary for a third party to conduct an IT Security Risk Assessment to determine Bayview's Information Technology risk exposure.

Bayview has a documented risk assessment process. The risk assessment process has been reviewed and (in some cases) approved by numerous third parties with whom Bayview conducts business. Several of these third parties actually audit Bayview's compliance with the documented risk assessment process. At a minimum, the IT Security Risk Assessment conducted by the vendor must precisely address all the items in the existing documented risk assessment process. However, one of the key discriminators in the RFP selection process will be the additional value provided by vendors over and above the minimum requirements.

In addition to the minimum requirements, the IT Security Risk Assessment should identify potential IT Security Risks not properly mitigated by existing ongoing security, technology and compliance efforts at Bayview. The additional risks identified during the IT Security Risk Assessment will be included in Bayview's ongoing initiatives to establish and maintain a suite of "standard of due care" controls. These overall suites of controls are established to address a wide variety of risk, governance, security, technological and compliance requirements in IT security with which Bayview must comply.

1 CONTENTS

This RFP contains sections that provide potential vendors with a better understanding of the business and technical objectives of this effort. The major sections of the RFP template are:

- **Introduction and Background:** A description of this project's objectives including any pertinent background relating to Bayview or its business objectives that may provide vendors with additional or useful perspective.
- **Administrative Information:** Contact information that vendors will need to prepare and submit proposals as well as major dates associated with the RFP submission, evaluation and award process.
- **Guidelines for Proposal Preparation:** Guidelines for vendor communication with Bayview as well as the preferred proposal format
- **Evaluation Factors for Award:** Outline of the criteria that will be used to evaluate the various proposals.
- **Statement of Work and Deliverables:** Technical details about Bayview's environment such that vendors are able to determine the scope of work and determine appropriate cost. In addition, the deliverables or work products required from the project are described.

2 INTRODUCTION AND BACKGROUND

2.1 PURPOSE OF THE REQUEST FOR PROPOSAL

Bayview Asset Management, LLC (“Bayview”) is a highly rated servicing platform that for over ten years has provided primary and special mortgage loan servicing for residential and commercial loans. Currently, Bayview has approximately 1000 employees and is headquartered in Coral Gables, Florida with offices in Dallas, Texas, Fort Washington, Pennsylvania and Pompano Beach, Florida.

Bayview is interested in conducting an IT Security Risk Assessment to:

- Satisfy ongoing audit requirements for an annual risk assessment in accordance with the processes outlined in the Bayview Information Security Risk Assessment Technology Support Process (Attachment I).
- Determine additional IT Security related risks yet unidentified or unaddressed by ongoing security, technology and compliance efforts.
- Rank the residual risks identified based on their potential business impact to Bayview.
- Identify potential mitigation strategies for the residual risks identified.
- Assist Bayview in selecting the optimum strategies and actions to mitigate the risks identified.
- Identify additional IT security efforts necessary to prepare for a penetration test to be conducted in Q4 of 2011.

These activities are part of Bayview’s ongoing risk management program which focuses on determining Bayview’s risk exposure so that appropriate mitigation strategies are developed and executed.

Bayview is seeking to identify and select an external, objective and independent vendor to perform the aforementioned activities. The subsequent sections of this document provide additional information that will allow a vendor to understand the scope of effort, develop a proposal, and submit the proposal in the format desired by Bayview.

3 ADMINISTRATIVE

3.1 TECHNICAL/CONTRACTUAL CONTACT

Any questions concerning technical specifications, contractual terms and conditions, proposal format or Statement of Work (SOW) requirements must be directed to:

Name	Delano Lalla
Address	4425 Ponce De Leon Blvd, Coral Gables FL 33146
Phone	305-646-3712
FAX	305-644-8188
Email	AssessmentBid@bayviewfinancial.com

3.2 PROJECT MANAGEMENT CONTACT

The day to day activities of the Risk Assessment will be overseen by the following individual.

Name	Patrick Wadsworth
Address	4425 Ponce De Leon Blvd, Coral Gables FL 33146
Phone	305-646-6445
FAX	305-644-8188
Email	patrickwadsworth@bayviewassetmanagement.com

3.3 DUE DATES

A written confirmation of the Vendor's intent to respond to this RFP is required by 07/29/11. All proposals are due by 09:00 AM 8/12/11. Proposals received at the designated location after the required time and date specified for receipt shall be considered late and non-responsive. Late proposals will not be evaluated for award.

3.4 SCHEDULE OF EVENTS

Event	Date
1. RFP Distribution to Vendors	7/22/11
2. Written Confirmation of Vendors with Bid Intention	7/29/11
3. Questions from Vendors about scope or approach due	7/22/11-7/29/11
4. Responses to Vendors about scope or approach due	8/1/11
5. Proposal Due Date	8/12/11
6. Target Date for Review of Proposals	8/16/11
7. Final Vendor Selection Discussion(s)--Week of	8/15/11
8. Anticipated decision and selection of Vendor(s)	8/19/11
9. Anticipated commencement date of work	9/5/11

4 GUIDELINES FOR PROPOSAL PREPARATION

4.1 PROPOSAL SUBMISSION

Award of the contract resulting from this RFP will be based upon the most responsive Vendor whose proposal will be the most advantageous to Bayview in terms of cost, functionality, and other factors as specified elsewhere in this RFP.

Bayview reserves the right to:

- Reject any or all offers and discontinue this RFP process without obligation or liability to any potential Vendor
- Accept other than the lowest priced offer
- Award a contract on the basis of initial offers received, without discussions or requests for best and final offers
- Award more than one contract

Vendor's proposal shall be submitted as set forth below. The Vendor will confine their submission to those matters sufficient to define their proposal and to provide an adequate basis for Bayview's evaluation of the Vendor's proposal.

In order to address the needs of this procurement, Vendors may work cooperatively in presenting integrated solutions. Vendor team arrangements may be desirable to enable the companies involved to complement each other's unique capabilities, while offering the best combination of performance, cost, and delivery for the IT Security Risk Assessment being provided under this RFP. Bayview will recognize the integrity and validity of Vendor team arrangements provided that:

- The arrangements are identified and relationships are fully disclosed, and
- A primary Vendor is designated that will be fully responsible for all contract performance.

Vendor's proposal in response to this RFP will be incorporated into the final agreement between Bayview and the selected Vendor(s). The submitted proposals are suggested to include each of the following sections:

1. Executive Summary
2. Approach and Methodology
3. Project Deliverables
4. Project Management Approach
5. Detailed and Itemized Pricing
6. Appendix: References
7. Appendix: Project Team Staffing
8. Appendix: Company Overview

The detailed requirements for each of the above-mentioned sections are outlined below.

5 DETAILED RESPONSE REQUIREMENTS

5.1 EXECUTIVE SUMMARY

This section will present a high-level synopsis of the Vendor's responses to the RFP. The Executive Summary should be a brief overview of the engagement and should identify the main features and benefits of the proposed work.

5.2 SCOPE, APPROACH, AND METHODOLOGY

This section should include a description of each major type of work being requested of the vendor. All information provided will be held in strict confidence. The proposal should reflect each of the following sections:

- How each of the items outlined in the Bayview Information Security Risk Assessment Technology Support Process will be accomplished.
- Additional IT Security Risk Assessment methodology or models to be used
- Proposed risk assessment Interview questions
- How assets will be identified and ranked (assets are already identified in Bayview's BCP)
- How vulnerabilities will be identified and ranked
- How probability of event occurrence will be calculated
- How risks will be identified and ranked
- How risks will be documented
- How mitigated risks will identified and documented
- How residual risks will identified and documented
- How mitigation strategies for each residual risk will be determined
- How most effective mitigation strategies will be determined and finalized
- How results of risk assessment will be documented and presented to IT and senior management
- How to identify additional IT security efforts necessary to prepare for a penetration test

5.3 DELIVERABLES

Include descriptions/samples of reports used to summarize and provide:

- Information assets identified
- Vulnerabilities identified
- Probability of occurrence identified
- Detailed information on risks identified
- Relative ranking of risks based on potential impact
- Mitigated risks
- Residual risks
- Potential mitigation strategies for residual risks discovered
- Recommended and prioritized mitigation strategies for residual risks discovered
- Additional IT security efforts necessary to prepare for a penetration test

Include examples of the types of reports that will be provided for this engagement as attachments to the RFP.

5.4 PROJECT MANAGEMENT APPROACH

Include the method and approach used to manage the overall project and client correspondence. Briefly describe how the engagement proceeds from beginning to end.

5.5 DETAILED AND ITEMIZED PRICING

Include a fee breakdown and estimates of travel expenses.

5.6 APPENDIX: REFERENCES

Provide three current corporate references for which you have performed similar work.

5.7 APPENDIX: PROJECT TEAM STAFFING

Include biographies and relevant experience of key staff and management personnel. Describe the qualifications and relevant experience of the types of staff that would be assigned to this project by providing biographies for those staff members. Describe insurance coverage type (i.e. errors and omissions, personal liability etc.) and coverage levels of employees. Affirm that no employees working on the engagement have ever been convicted of a felony and have passed a criminal background check.

0078

5.8 APPENDIX: COMPANY OVERVIEW

Provide the following for your company:

- Official registered name (Corporate, D.B.A., Partnership, etc.), Dun & Bradstreet Number, primary and secondary SIC numbers, address, main telephone number, toll-free numbers, and facsimile numbers
- Key contact name, title, address (if different from above address), direct telephone and fax numbers
- Person authorized to contractually bind the organization for any proposal against this RFP
- Brief history, including year established and number of years your company has been offering Information Security Testing

6 EVALUATION FACTORS FOR AWARD

Any award to be made pursuant to this RFP will be based upon the proposal with appropriate consideration given to operational, technical, cost, and management requirements. Evaluation of offers will be based upon the Vendor's responsiveness to the RFP and the total price quoted for all items covered by the RFP.

The following elements will be the primary considerations in evaluating all submitted proposals and in the selection of a Vendor or Vendors:

1. Completion of all required responses in the correct format
2. The extent to which Vendor's proposed solution fulfills Bayview's stated requirements as specified in this RFP
3. An assessment of the Vendor's ability to deliver the indicated service in accordance with the specifications set out in this RFP
4. The Vendor's stability, experiences, and record of past performance in delivering such services
5. Availability of sufficient high quality Vendor personnel with the required skills and experience for the specific approach proposed
6. Overall cost of Vendor's proposal

Bayview may, at its discretion and without explanation to the prospective Vendors, at any time choose to discontinue this RFP without obligation to such prospective Vendors.

7 SCOPE OF WORK

The following information should be used to determine the scope of this project and provide pricing for this engagement:

Develop interview questions, interview plan and conduct interviews • Number of Interviews to be conducted not to exceed 10 • Number of Interview Questions not to exceed 30 • Interviews to be conducted over a 1-2 week period
Document assets, vulnerabilities, likelihood and risks identified • Document and prioritize information assets by business value (not to exceed 40 assets) • Document vulnerabilities to information assets • Document event likelihood • Document risks identified
Determine existing mitigation • Determine and document existing risk mitigation measures • Determine and document residual risks to information assets
Determine additional mitigation requirements • Document potential additional risk mitigation measures to address residual risk • Document prioritized additional risk mitigation measures based on potential impact
Determine additional IT security requirements for penetration test • Document existing IT security measures in place • Document prioritized additional IT security measures necessary to prepare for penetration testing
Deliverables • Document assets, vulnerabilities, likelihood and risks • Document existing mitigation measures and residual risk • Document potential mitigation measures to address residual risk • Document recommended and prioritized mitigation strategy • Document executive summary of risk assessment results • At a minimum, deliverables should address all sections of Bayview's Risk Assessment Process document • Document additional IT security efforts necessary to prepare for a penetration test
Presentations and meetings • Conduct meetings to determine, assets, asset business value, vulnerabilities, probability of event occurrence and risk to information assets. • Conduct meetings to determine existing IT security measures in place to prepare for a penetration test • Conduct secondary meetings to review existing risk mitigation strategies and determine residual risks. • Conduct additional meetings to identify and select optimum mitigation strategies to address residual risk. • Present final detailed risk assessment results and optimum mitigation strategies to key Bayview stake holders • Present suggested additional IT security measures necessary to prepare for a penetration test • Present final executive summary of prioritized risk assessment results with optimum mitigation strategies to key members of Bayview senior management
